

2019 TAMBA Stats

4,790 volunteer hours of trail building
2,675 volunteer hours of advocacy, trail planning, and administration
257 individual volunteers
174 volunteer trail days
150 logs cleared
25 trails maintained
4.5 miles of new trail built
960 paid trail-building hours

2019 Trail Project Accomplishments

Last year was an exciting year to grow our trail building projects, continuing our vision for a connected system of dirt trails you can mountain bike around all of Lake Tahoe. In total we built nearly 5 miles of new trail in 2019 while helping maintain dozen more miles of existing trails.

- TAMBA volunteers spent countless hours maintaining trails, repairing trails, and clearing logs on Armstrong Connector, Angora Ridge, Cold Creek, Incense Cedar, Incline Flume, Lake View Ridge, Lower Corral, Mule Deer, Powerline, Sidewinder, Star Lake, Stinger, Stumpy SG, Tahoe Mountain, Tyrolian, Upper Corral, and Valley View.
- With help from the U.S. Forest Service, TAMBA volunteers spent 1,450 hours over 45 days on the **Lily Lake Trail**, building 1,500 feet of new trail through a challenging talus field moving rocks the size of small cars.
- The new **Beaver Tail Trail** in Kings Beach was constructed with berms and jumps in Kings Beach is located off the Beaver Street access and was built with help from the Forest Service, Tahoe Fund and support from the Tahoe Truckee Airport District
- The new 4.5-mile **Tamarack Lake Trail** was completed, and two new bridges installed connecting the top of Mount Rose Highway to Sky Tavern providing a fun downhill or moderate climb with expansive views.
- On the West Shore's **Stanford Rock**, TAMBA completed 2.4 miles new trail to the top and built an 85-foot-long log ride, possibly the longest in Tahoe! Prep work was completed for more trail to be built in the area in 2020 and 2021.
- TAMBA planned for future signage on the **Hartoonian** trails, a trail system connecting numerous South Tahoe neighborhoods.
- TAMBA completed extensive planning for future development and reconstruction of the **Tyrolian** downhill trail, with the future goal of creating a dedicated singletrack

connection to the top of Mt. Rose Highway. Pending funding, we could start construction in late 2020.

- At the upper and lower parking areas for **Corral**, TAMBA installed two new trail kiosk maps to help riders and hikers find their way on the trails.
- TAMBA raised over \$12,000 from Rose to Toads to use toward 2020 maintenance efforts on **Mr. Toads Wild Ride**.
- Volunteers and paid builders maintained the **Bijou Bike Park**, one of our signature projects in partnership with the City of South Lake Tahoe. September 2020 will mark the 5 year anniversary of the bike park's grand opening!

2019 Signature Events Recap

To help fund our trail projects, TAMBA hosted three signature events under a Special Use Permit with the U.S. Forest Service. Our first event was the **7th Annual Tahoe Mountain Bike Festival** on June 22nd and 23rd at the beautiful Tahoe Paradise Park. On Day 1, 134 riders tackled the Iron Butterfly Ride, and 33 enjoyed the intermediate Railroad-Cedar Ride. On Day 2, a total of 89 people demoed bikes in morning and afternoon sessions. Thanks to the huge turnout, TAMBA netted more than **\$12,600** from the event.

On September 2, 200 intrepid mountain bikers pedaled 63 miles, climbed 8,000 feet, and descended 10,000 feet on our **9th Annual Rose to Toads**. It took most people all day to complete the ride, which takes riders along some of Tahoe's best trails from Mount Rose on the North Shore to Mr. Toads Wild Ride on the South Shore. TAMBA raised **\$14,600** for Tahoe's trails from this sold-out event.

Finally, October 12 was TAMBA's **Corral Night Ride**, where we capped off the mountain biking season by dressing up in costumes and riding through the woods in the dark. The event was free to members this year – our way of saying thank you.

We have had to our 2020 events on hold for now, but we do hope to be able to host them in some capacity following all guidelines, please stay tuned for details through our social media and website.

Upcoming 2020 Trail Projects

As of the writing of this newsletter on May 1, 2020 our staff, volunteers and tools are all sheltering in place due to the COVID-19 pandemic. This is causing a hiccup in our planned 2020 field operations but we are working closely with our partnering land managers to see how we can safely and responsibly get back out on the trails this summer to execute our critical maintenance work and hopefully some of our planned construction projects. All of our spring

and summer trainings have been indefinitely postponed as of this writing. If we are able to reschedule and hold these trainings we will be sure and inform all registered participants.

In our pre-COVID world, we planned to focus on several major trail projects around Lake Tahoe. When we are able to safely resume our field operations these are the projects that we look forward to getting started on! We'll use a combination of dedicated volunteers and paid crews to help us achieve the collective vision of connecting all Tahoe communities to fun multi-use trails.

- **Stanford Rock Trail Reconstruction:** After great progress in 2019, we plan to build nearly two more miles of trail and add more berm, pump, and flow, plus some advanced lines. We hope to finish this project this season.
- **Lily Lake Trail Construction:** We made it most of the way through the technically-challenging talus field last season, and this year we'll use \$65,000 raised by Tahoe Fund to hire professional crews to help us finish the remaining 1.5 miles of trail.
- **Armstrong Connector/Corral System Trails:** In partnership with U.S. Forest Service Lake Tahoe Basin Management Unit ("LTBMU"), we plan to perform some much-needed maintenance, including tread armoring, retaining wall construction, and erosion remediation, on these popular trails.
- **The Lake Trail:** We'll continue working with the LTBMU on environmental approvals and alignments for a future multi-use trail around Lake Tahoe.
- **K to K:** TAMBA is assisting the Tahoe Rim Trail Association in the restoration of the Kingsbury to Keller Trail in Van Sickle State Park. Construction is scheduled to begin on the south side of the trail this summer.
- **Belli Front:** We are looking forward to breaking ground on this project just west of the Reno area.

As we do each year, we'll also work on various trail maintenance projects throughout the Tahoe Basin.

Please visit [TAMBA.org](https://tamba.org) for information and volunteer opportunities to get involved.

2020 TAMBA Leadership

Board of Directors:

Ben Fish – President
Christine Dobrowolski – Treasurer
Brian Kelly – Secretary
Scott Brown – Trails Director
Amy Fish – Board Member
John Clausen – Board Member
Aaron Daniel – Board Member

Leadership Team:

Aaron "Elko" James, Bob Ward, Chris McNamara, Nils Miller, Pete Fink, Thomas Tran, Sue Hughes, Ted Langevin, Kevin Joell, Sandor Lengyel, Chris Smith

Staff:

Patrick Parsel – Trails Coordinator
Joan Wharton – Administrative Assistant
